Project Manager – Carpentry & Joinery

Description

- **Our Client**

This business is a well-established and thriving Carpentry and Joinery Contractor that complete large value packages (both labour & plant and labour, plant & materials) on flagship commercial and residential projects across London and the South East. Their in-house joinery shop also allows them the capability to be one of the best in the business.

They are a pleasure to work with and have achieved an enviable staff retention rate through the creation of a culture of excellence where people are empowered to deliver in an autonomous manner.

On-site safety is paramount to their culture, and they are looking to constantly evolve in this area through a multi-faceted strategy utilising integrated management systems.

The Opportunity

This role will entail:

- Project delivery within the given constraints of time and cost
- Ensuring all health, safety and welfare obligations are met
- Creation and execution of project work plans and revision as appropriate to meet changing needs and requirements
- Management of client and stakeholder relationships
- Application of the company's methodology effectively and enforce project standards
- Appropriate risk management
- Ensuring project documents are complete, current, and stored appropriately
- Working closely with trades, labour, client, sub-contractors to ensure perfect delivery
